Program Overview

Located along the Mediterranean Sea, the city allows students to experience the wonderful culture of Catalunya. The mild climate, famed cuisine and breathtaking arts give the Mediterranean region a distinct feel, unique from anywhere else in the world.

There’s no better way to improve one’s knowledge of the Spanish language and its customs than by interacting with the local community. Students in Barcelona will have the opportunity to practice their language skills in the classroom and also with native Spanish speakers through language exchange programs and cultural events. Over the course of their time abroad, students can expect to participate in field study trips associated with specific classes, study tours, and day trips, as well as cultural activities like Catalan cooking courses, Flamenco classes and cava tastings. A city tour of Barcelona and its architecture as well as visits to local markets and enterprises round out the experience.

The Institute for American Universities (IAU) is located in Aix-en-Provence, France situated on the Mediterranean coast.
